Curriculum updates

Please remember to look at the school website to find out what your child will be working on this half term. On the class page you will find information that will help you to support your child with their learning. There is also information from the class teacher.

We have been using knowledge organisers since the beginning of the year and you will find subject specific information on what your child is learning in class and the sequence of lessons.

You will also find the email address to contact the class teacher.

PE changes

There are some changes to PE days this term.

Year 2 and Year 3 have dance on Wednesday. They will come to school in their PE kit on Wednesday and their uniform all other days.

Reception, Year 1, Year 4, Year 5 and Year 6 have PE on Friday. They will come to school in their PE kit on a Friday and wear their uniform on all other days.

If your child takes part in an after school club and it is not their normal PE day, they will come to school in their uniform and change at the end of the school day for the after school club.

Please remember PE kit is

- White T-shirt
- Black shorts, leggings or tracksuit bottoms
- Children wear their school jumper.
- Black pumps or trainers

New staff

We have welcomed a number of new staff to the school. We would like to welcome them to our Alice Ingham family and we are sure that our parents will too.

The children have been very settled on their return to school and it has been great to see the staff working in the 'Alice Ingham Way'.

If you would like to contact any of the class teachers, remember that their class email is on the school website.

Please make sure your child has their reading book in school every day. Please read with your child at home as often as you can.

The league table will return next week. Please make sure your child is accessing TT Rockstars, particularly if they are in Year 3 and Year 4. Having rapid recall of timetables facts helps with many more aspects of the maths curriculum.

Year 4 also have a Multiplication Tables check in June of this year. This is an assessment of their rapid recall of number facts related to the multiplication tables. The more practise they get the better they will be.
