

In this unit we will ...

- Add and subtract 3-digit numbers
- Decide if we need to exchange
- Exchange across more than one column
- Learn how to check our answers in different ways
- Use bar models to solve 1- and 2-step problems

Year 3 Addition and Subtraction

National Curriculum Link – Year 3 addition and subtraction

- Add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction.
- Add and subtract numbers mentally, including: a three-digit number and ones, a three-digit number and tens, a three-digit number and hundreds.
- Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.

How does this unit build on prior learning?

In this unit, children build on previous learning to add and subtract numbers with up to three digits. They begin by using place value equipment and formal written methods of columnar addition and subtraction.

Before they start this unit, it is expected that children:

- know how to partition numbers to 1,000 flexibly
- understand the concept of exchange in addition and subtraction
- know how to represent additions and subtractions using place value equipment and a place value grid.

$$\begin{array}{r} \text{H T O} \\ 3 \ 2 \ 6 \\ + 5 \ 4 \ 1 \\ \hline 8 \ 6 \ 7 \end{array}$$

$1 \times 4 = 4$	$1 \times 3 = 3$
$2 \times 4 = 8$	$2 \times 3 = 6$
$3 \times 4 = 12$	$3 \times 3 = 9$
$4 \times 4 = 16$	$4 \times 3 = 12$
$5 \times 4 = 20$	$5 \times 3 = 15$
$6 \times 4 = 24$	$6 \times 3 = 18$
$7 \times 4 = 28$	$7 \times 3 = 21$
$8 \times 4 = 32$	$8 \times 3 = 24$
$9 \times 4 = 36$	$9 \times 3 = 27$
$10 \times 4 = 40$	$10 \times 3 = 30$
$11 \times 4 = 44$	$11 \times 3 = 33$
$12 \times 4 = 48$	$12 \times 3 = 36$

Key Vocabulary

addition	The sum of two numbers
subtraction	The difference between two values
mental method	Working out the answer in your head
column method	Adding or subtracting by writing the numbers down in the correct column
exchange	Swap
